IDENTIFIERS *California

ABSTRACT

A 1982 directory of California migrant secondary school programs and contact people contains listings for high schools in 171 communities. For each of 10 regions of California, a map of counties is provided, followed by school district names, mailing addresses and names of superintendents, principals, counselors, and home visitors; telephone numbers are given for most districts and persons. Regional maps note which programs are direct-funded and give names, addresses, and telephone numbers of regional contact people. High schools are also listed alphabetically by city. A map from the California master plan for migrant education shows operating agencies and gives names, addresses, and telephone numbers of contact persons for regional and direct-funded programs.
